

engaging science

Planning a professional development day? Get your K–7 staff excited about teaching science.

The H.R. MacMillan Space Centre, Science World and the Vancouver Aquarium have teamed up to offer a series of *Engaging Science* workshops to teachers.

By exploring Earth and Space Science, Physical Science, and Life Science these workshops will support teachers in implementing the new BC Science curriculum while making cross-curricular connections. Each workshop contains exciting hands-on activities, methods and resources designed to educate, equip and engage K–7 science programs.

PROFESSIONAL ENRICHMENT FOR K–7 TEACHERS!

Choose 3 workshops, with at least one from each group:

Group One

Earth and Space Science

It's the Earthquakes Fault!
Surfing the Solar System

Physical Science

A New Spin on Motion
Enlightening Electricity
Identified Flying Objects
Sound Bites
Cookin' with Chemistry

Group Two

Life Science

Not-So-Scary Science
Wild Wetlands
Coastal Creatures
Survivor: Outgrow, Outrun, Outlive
The Human Body: Nose to Toes

**Complements
the new K–7
Science
curriculum!**
